

Young Engineers After-School Club

Risk Assessment

| | | | | |
|--|--|--------------------------------|--|-----------------------|
| Name of activity, event, and location | Bricks Challenge and Galileo Technic programs. Location is School Classroom | Date of risk assessment | Name of person doing this risk assessment | Young Engineers Rugby |
| | | 20 th March 2026 | | |

| What hazard have you identified? What are the risks from it? | Who is at risk? | How are the risks already controlled? What extra controls are needed? How will they be communicated to young people and adults? |
|--|------------------------|--|
| Swallow risk with small elements | Young People | Instruct participants not to separate with teeth and instead use brick separators or ask for help if needed. |
| Picking up Lego pieces from the floor under tables could result in heads being banged on underside of the tables | Young People | Observe and advise as required |
| When dismantling built models etc pieces can come apart quickly & in unexpected directions | Young People | Encourage participants to take their time and be cautious when taking a model apart |
